

Unions 21 Annual Conference 2008

Who cares about skills?

9.30 — 15.30, Friday 7 March, Hamilton House, London

Union learning is hailed as a great development for the trade union movement. The Union Learning Fund has grown and this year it's celebrating its tenth anniversary. There is an increasing number of Union Learning Reps. What better time for Unions 21's conference to look into union involvement in learning and skills...

- To what extent is the learning and skills agenda embedded in union activity?
- Are the right skills being delivered?
- Is union learning about more than just basic skills?
- Are the new skills being used effectively?
- Is union learning widening the bargaining agenda?
- Are ULRs an organising success story?

Come and join the debate at Unions 21's conference

Tickets (£15/£30) are available by visiting our website:

www.unions21.org.uk

Discount for Union Learning Reps.
